ASP Piling is one of the most experienced and comprehensive providers of piling and anchoring solutions to the construction industry in Australia. Our sister company Australian Dewatering Systems is the leading dewatering service provider with Australia's largest fleet of water treatment settlement tanks.

Equipment Hire

When you need the best equipment and you need it fast, use the dewatering equipment the professionals use - the exclusive hire service from Australian Dewatering Systems Pty Ltd (ADS). ADS's equipment is state of the art and expertly maintained. If desired, we can also offer highly experienced operators for your project at an affordable cost.

The products ready for hire include:

- Certified Hydrocarbon Remediation Equipment (Fuel Remediation)
- Silt Curtains
- Sedimentation Tanks
- Piston pumps
- Suction / pressure hose
- 3-phase electrical leads
- Shoring boxes
- Automated pH correction systems
- Transfer Pumps
- Submersible pumps
- Vacuum pumps
- Lay flat hose
- Associated hose fittings
- Generators
- Sheet piles, etc

Pumps are available in either diesel or 3-phase electrical.

ADS equipment hire is available short or long term to suit your specific requirements. Our expert team can advise you on the right equipment for your project as well as arrange pick-up and delivery options. With over 20 years experience in the industry ADS are the leaders in the dewatering hire market. No project is too difficult, too small, or too large.

Advantages

Specialist Equipment: No need to purchase expensive specialist equipment for a one-off or occasional project. Rely on ADS expertly serviced and maintained equipment for all your needs.

Specialist Personnel: Equipment is available for 'dry hire' or hired out with fully certified operators. Our service technicians and operators are able to provide expert advice and offer the most practical and economical solutions for your individual requirements.

Convenient: ADS can deliver and pick up equipment to your construction site, and are only a phone call away.

ADS Equipment Hire

ADS hire equipment covers all the bases and is expertly maintained.

All equipment is available for 'dry hire' or with fully certified operators.
